

**Supplementary table 3. Prediction of immunogenic polypeptides at different thresholds in *Giardia* assemblage B isolate GS**

		PR ≤0.01, IC50 50 nM	PR ≤0.1, IC50 50 nM	PR ≤1.0, IC50 50 nM	<sup>1</sup> Total	<sup>2</sup> Overlapping polypeptides
<b>Number</b>	<b>of</b>	350	1682	2870	4902	2032
<b>polypeptides</b>						
<b>Number</b>	<b>of</b>	16	427	1281	1724	1281
<b>promiscuous</b>						
<b>polypeptides</b>						

PR, percentile rank. 1, total number of polypeptides predicted across all three thresholds. 2, polypeptides overlapping across the three thresholds.
